Fungicide.

Composition	Cymoxanil 2,85% w/w + Fosetyl Aluminum 30% w/w + Coper 16% w/w
Formulation	(WG) Soluble Microgranulate
Distributor	Devagri

FEATURES

VITENE TRIPLO R is a fungicide indicated for the control of downy mildew on grapevine and other horticultural products.

It has a double action by contact and systemic.

DOSAGE AND MODE OF USE

(*) Use the minimum rate under conditions of low disease pressure. The product can be used preventively at 10 to 12 day intervals. For post-infestation applications, apply the maximum rate at the beginning of the pathogen's incubation period.

Culture	Disease	Dose	Safety period
Vineyard	Midiou	4,5 kg/l	40 days
